

## Looking back on IBE-BIV seminar 2023

### Aim of IBE-BIV

The aim of The Belgian Illumination Institute is to focus on all scientific or technical activities related to both natural and artificial lighting. It is an international meeting place to promote the exchange of information on the science, technology and art of light and lighting.

In this respect, the IBE-BIV each year organizes a seminar.

### Some key figures of the past edition IBE-BIV Seminar 'HighLIGHTs' of 28 September 2023 :

- ✓ 5 presentations around the standard **NBN EN 12464-1** and **NBN EN 12193** and its applications. (Presentations are available on our website <https://ibe-biv.be/biv-seminar-2023/>)
- ✓ Guided tour in the **Herman Teirlinck building** of the Flemish Government in Brussels around 'The New Way of Working'
- ✓ **Public Lighting** situation 2023 - panel discussion with grid operators and regions
- ✓ IBE-BIV **Student Award** ceremony
- ✓ 96 participants at the conference day
- ✓ 70 participants at the evening programme with reception and walking dinner
